FY12 Opportunities

Joint IP Modem

Project – Joint IP Modem
Anticipated Start Date – First Qtr, FY13

The JIPM PMO will execute a new acquisition strategy for meeting the Defense Information Systems Agency's (DISA) vision for the integration of terrestrial, wireless, and satellite communications. This strategy will be comprised of sustaining Joint IP Modem (JIPM) version 1 (V-1), ensuring V-1 interoperability, and acquiring future JIPM variants to meet current and future requirements for the Services' and Combatant Commands' VSAT terminals. The subsequent contract award will help secure a technology roadmap for unified, common satellite network architecture and transport service for efficient and
